

EVALUATING INTERNET SOURCES

Not everything you see online is true. That's why it's so important to screen websites before you use them to help with homework or for information in a school report.

Go to: <https://www.saugushighschoollearningcommons.org/evaluating-sources.html>

And use the 5 W's of Website Evaluation:

WHO – WHO is the author or who put the website on the internet?

WHAT – WHAT information does the website give? Is it factual or opinion?

WHEN – WHEN was the site created? (Usually at the bottom of the page)

WHERE – WHERE does the information come from? Where can I find out more about the author?

WHY – WHY should I use this information? WHY is this website useful?
